Who we are?

SOEI COMMERCE OVERSEAS established in 2019 & headquartered at Amritsar - Punjab, India - is engaged in "Sourcing, Value-Adding & Exporting superior quality food ingredients". We source from the origin of the raw material to ensure quality and price advantage. The products are then moved to our facility at Amritsar for value addition as per customer specifications. With the experience & expertise of our adroit workforce, we have been able to position ourselves in the market as one of the most reliable companies in the food ingredient business. Our aim is to redefine the market standards when it comes to Quality, Service and Customer Satisfaction.

For years, we have been in the business of supplying high-quality and wide range of farm- herbs to client satisfaction at a comfortable price and with prompt delivery. These years of honest service have given us the recognition of India's leading raw herbs supplier in the Ayurvedic, Pharmaceuticals and Nutraceutical industries. We specialise in all kinds of botanical and natural herbs found in India in the form of fresh and dried through latest hygienic processes.

We give due importance to the storage of herbal products by maintaining standard guidelines and prevent their deterioration and contamination.

Each and every process right from procurement to packing is under the careful and strict supervision of our qualified and certified professionals. In order to meet the diverse requirements of our clients, we also offer customization in flavour/quantity/packing for these products as per their exact demands. Our Major markets are Middle East, Europe, South-East Asia, Indian Subcontinent and growing. Our consistent focus on value addition and our ethical business practices and policies have helped Company strive to prove our excellence in this industry.

Our Aim

High Quality trustworthy trade

We aim to offer complete customer satisfaction and build a friendly long-term business relationship with them.

We always enhance our workforce to provide good quality herbs and natural products and aim for the customer-oriented approach, thus, exceeding the expectations of our customers. Our entire team is committed to work with utmost sincerity and understand the clients' requirements with kindness and concern.

This has helped us to not only gain the faith of our customers in India, but also develop strong business relationships with many customers abroad.

Majority of the trade deals are operated through our own network and we leave no stone unturned to offer quality products within the shortest time frame.

We always test the products for quality control before we procure them and store in our godowns. Since our products come directly from the farmers or the knowledgeable and experienced person who gather them from forests, we can boast of the quality and purity of our products.

Besides gaining the confidence of our customers over quality and standards, we also work to maintain ecological and environmental sustainability by planting more trees in the country through various social programmes.

To deliver high-quality and wholesale raw herbs at competitive prices by applying the latest technologies and understanding the market needs for quality herbal drug supply.

As good as our supplying business, so is our after sales services. We strive to deliver the product to the client at the right time without affecting the quality. We believe in maintaining ethics, integrity, transparency, and fair play in all our business policies and strive to maintain high standards of morality, which have earned us the trust and confidence since years.
